

Principles of Physics, GS104 Syllabus

General Information

Instructor Information and Availability

Instructor name: Heather Hill

E-mail address: hillh@linnbenton.edu

Office hours: See Calendar Link in Moodle (available by appointment)

Office: <https://linnbenton.zoom.us/my/physics.heather>, Password: Physics

Science Help Desk Hours: Monday 1 – 3pm and Wednesday 3 – 5pm

Zoom Link: <https://linnbenton.zoom.us/j/96043929596>, Password: Science

Course Information

CRN: 22612; Section: 01

Scheduled time and day: 8am – 9:50am on Friday (Lecture)

Added Optional Meeting times: 8am – 9:20am on Monday (Lab) and Wednesday (Lecture)

Number of credits: 4

Classroom: <https://linnbenton.zoom.us/j/91744400574>; Password: GS104

Prerequisites:

MTH 075 Variables and Linear Equations or equivalent with a grade of "C" or better.

Course Materials

Optional:

- Textbook: *The Physics of Everyday Phenomena*, 7th ed., by W. Thomas Griffith

Course Description

A survey course that will introduce you to concepts in physics, without diving deep into the mathematics. The purpose of this course is to give you a general understanding of physics, as well as encouraging further interest in physics.

My favorite topics within physics are acoustics, biophysics (breast cancer cell research), physics education research (PER) and historical physics. You can ask me about Schrödinger's cat, the Michelson Interferometer and the luminiferous æther, marimba resonator and bar construction, microtumors or spheroids, single photon confocal microscopy and multiphoton microscopy.

Plan for the term due to COVID-19:

I plan to continue to hold class as scheduled remotely. I will use both synchronous and asynchronous teaching utilizing Moodle, Zoom, and Gradescope. Any teaching done synchronously will be recorded in the event you are unable to “attend” class. It is also possible that my style will shift as we work together in this new learning environment. I do hope to connect with each of you at least once per week throughout the term. I understand that it may look different for different individuals.

Student Learning Outcomes

1. Describe and apply the process of scientific inquiry.
2. Solve problems using quantitative methods.
3. Use a variety of tools to collect data related to physical phenomena.
4. Analyze data and present conclusions from experiments related to physical phenomena.
5. Describe motion and forces using appropriate language and diagrams.
6. Describe and use the concept of conserved quantities to solve problems.
7. Solve conceptual problems related to two additional topics in physics from such areas as: waves and oscillations, thermodynamics, electricity and magnetism, and special relativity.

Class Policies

Class Format

The class will be highly interactive. Traditional lecture, where the instructor will introduce physical laws, ideas, and problem-solving techniques, will be combined with ‘studio,’ where the students will work on a given problem in groups using a shared whiteboard.

Behavior and Expectations

You are held accountable to the [Student Code of Conduct](#), which outlines expectations pertaining to academic honesty (including cheating and plagiarism), classroom conduct, and general conduct.

Use of Cell Phones

Phones are expected to be silenced and put away during class.

Testing

- Tests are taken individually, and are closed book unless told otherwise.
- If you know you will be absent on a test day please contact me ahead of time to schedule a make-up in the Student Assessment Center in RCH-111.
- Once tests are returned to the class they cannot be made up.
- The final exam is currently scheduled for Monday, Dec 7th, from 8am – 9:50am.

Grading:

Midterms:	30%
Final:	20%
Homework:	20%
Lab/Activities:	20%
Journal:	5%
Participation:	5%

Grades:

A	100 – 90%
B	89 – 80%
C	79 – 70%
D	69 – 60%
F	59 – 0%

Exams: Due to the nature of physics, all exams are cumulative. There will be two midterm exams given and one final exam.

Homework: There will be a weekly homework assignment posted. Homework must be written up and submitted to Gradescope each week. Do not attempt to do all the homework the night before it is due as you will likely not be able to finish. **I will drop your lowest score.**

Labs: Laboratory work is important in any science class. The best way to get to know the Universe is to go up and poke and prod it to see how it reacts back (within reason).

Each week, labs will provide students with simulations and questions that they will solve/understand using relevant physics. The lab will be written up by each student and submitted to Gradescope. **I will drop your lowest score.**

Journals: At the end of each week, I would like you to reflect upon the concepts we have discussed in class, the labs we performed, and the activities you engaged in. Journals will be submitted in Moodle and will be due on Wednesday by midnight. Attachments can be uploaded through the journal feature on Moodle. **100 word minimum.**

In whatever way suits your artistic or methodological mind, keep a journal of how the physics relates to **your** life. You can draw a picture (and upload it), write a traditional journal entry, share a science/physics YouTube video and describe what you learned from it, find a quote and tell me how it relates to the aspect you learned, etc... **Make this yours.**

The goal of the journal is to help bridge the time between class meetings and keep the conversation between you and me going. You can even tell me what is going well and what is going terribly.

Participation: I would like to encourage you all to be present and participate for this class. To hold you accountable, I am requiring attendance to a live Zoom session **once per week**. I would absolutely love it and highly recommend that you attend more, but at the bare minimum, I stand at once per week. For success, I believe more meetings and contact with instructor and peers is necessary, which is why I have scheduled the two additional meeting times.

If you are absolutely not able to make a live session throughout the week, please make an individual appointment with me via Office Hours. This will serve as a weekly check-in to make sure everything is going alright and you are staying on track.

You are responsible for double checking my attendance input on Moodle to make sure we both have you down for your weekly attendance. **I will drop one week of attendance.**

Calculator Policy: Students may use **any calculator** (that is not a cell phone). However, a calculator is not required for this course.

Incomplete grades (IN) will only be considered if a student has talked to me in advance, and a signed agreement between the student and myself is completed. IN grade are assigned only if the student has a good reason for making the request, has only the minority of coursework to complete, and has scored a C or better on work that has been submitted.

Late Assignment Policy

No work can be made up after it is returned to the class. Late homework is not accepted. **One lab and one homework will be dropped.**

College Policies

LBCC Email and Course Communications

You are responsible for all communications sent via Moodle and to your LBCC email account. You are required to use your LBCC provided email account for all email communications at the College.

Disability and Access Statement

LBCC is committed to inclusiveness and equal access to higher education. If you have approved accommodations through the Center for Accessibility Resources (CFAR) and would like to use your accommodations in this class, please talk to your instructor as soon as possible to discuss your needs. If you believe you may need accommodation but are not yet registered with CFAR, please visit the CFAR website at www.linnbenton.edu/cfar for steps on how to apply for services or call 541-917-4789.

Statement of Inclusion

To promote academic excellence and learning environments that encourage multiple perspectives and the free exchange of ideas, all courses at LBCC will provide students the opportunity to interact with values, opinions, and/or beliefs different than their own in safe, positive and nurturing learning environments. LBCC is committed to producing culturally literate individuals capable of interacting, collaborating and problem-solving in an ever-changing community and diverse workforce.

Title IX Reporting Policy

If you or another student are the victim of any form of sexual misconduct (including dating/domestic violence, stalking, sexual harassment), or any form of gender discrimination, LBCC can assist you. You can [report](#) a violation of our sexual misconduct policy directly to our Title IX Coordinator. You may also report the issue to a faculty member, who is required to notify the Coordinator, or you may make an appointment to speak confidentially to our Advising and Career Center by calling 541-917-4780.

Campus Police/Emergency Resources

You may review emergency services and resources at the LBCC [Public Safety website](#). Campus Safety can be reached using the 'Code 2' button on any campus phone or by dialing x411 on campus or (541) 917-4440 off campus. Dial 911 for off campus emergencies.

Campus Resources

Learning Center

The Learning Center provides academic support and a comfortable place to study. It is located on the second floor above the Library. It also provides free tutoring services for all classes.

Library

Computers and printing available.

Science Help Desk

The Science Help Desk is located in the atrium on the first floor of Madrone Hall and is manned 20 hours per week. (<https://www.linnbenton.edu/student-services/library-tutoring-testing/learning-center/science-support.php>)

Roadrunner Resource Center

Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live, and believes this may affect their performance in the course, is urged to contact the Roadrunner Resource Center for support (Resources@linnbenton.edu, 541-917-4877, or visit the website <https://www.linnbenton.edu/student-services/other-resources/roadrunner-resource-center.php>). The office can help students get connected to resources to help. Furthermore, please notify me if you are comfortable in doing so. This will enable me to provide any resources, knowledge or connections that I may possess to help aid.

Linn-Benton Lunch Box

The LB Lunch Box provides an emergency supply of food for students in need. <https://www.linnbenton.edu/student-services/other-resources/lunchbox.php>

Other Help & Resources

Students with Young Children; Housing Information; Transportation options <https://www.linnbenton.edu/student-services/other-resources/index.php>

Other due to COVID-19:

The college has an amazing [FAQ](#) page about how the term will work (and how to access basic needs resources, such as food and rent if you need them).

If you do not have access to a computer, call the LBCC library at 541-917-4630. If you do not have internet access, there are some [options](#) listed under the category of “Staying Successful in Your Classes.”

I understand that many of you have not taken an online course before or have limited experience sing spring term. I have never taught an online course before spring term! I will be extremely flexible and willing to help you in any way I can. My goal is to find a way for all students to succeed!

A note on Zoom: I know not everyone will be able to participate, but I hope many of you will. (It is okay if you have kids at home or pets!) Zoom uses your computer (or phone) camera and audio, so you can see me and other students. In this time of isolation, Zoom can really connect us and help to develop a class community. To get started with Zoom, all you need to do is go [here](#), and sign in with your LBCC email and password. This will create your Zoom account automatically. Your first use of Zoom will require a one-time download. The Zoom mobile app works similarly.

Changes to the Syllabus

I reserve the right to change the contents of this syllabus due to unforeseen circumstances. You will be given notice of relevant changes in class, through a Moodle Announcement, or through LBCC e-mail.

Note: Changes are much more likely to occur this term due to troubleshooting new solutions for labs and activities in a science classroom. I will do my best to not change things around too much, but please be warned and flexible if things do need to change. My expectations for you are highly relaxed due to the many changes and I ask for the same in return.

GS 104 Tentative Schedule

Week	Monday	Wednesday	Friday
1	Sept 28th Intro Chapter 1, pg 1-13 Appendix A	Sept 30th Describing Motion Chapter 2, pg 18-34	Oct 2nd Motion Diagrams HW #1 Due
2	Oct 5th Lab 1: Measurement, Scientific Notation, Scientific Method	Oct 7th Pos, Vel, Accel Journal 1 Due	Oct 9th Falling Objects Chapter 3, pg 38-48 HW #2 Due
3	Oct 12th Lab 2: Pos, Vel, Accel The Moving Man Lab 1 Due	Oct 14th Gravity Journal 2 Due	Oct 16th Projectile Motion Chapter 3, pg 48-54 HW #3 Due
4	Oct 19th Lab 3: Gravity Lab 2 Due	Oct 21st Projectile Motion Journal 3 Due	Oct 23rd Newton's Laws Chapter 4, pg 60-74 HW #4 Due
5	Oct 26th Lab 4: Projectile Motion Lab 3 Due	Oct 28th Forces Exam Review Journal 4 Due	Oct 30th Exam 1
6	Nov 2nd Lab 5: Forces and Energy Lab 4 Due	Nov 4th Energy and Oscillations Chapter 6, pg 103-118 Journal 5 Due	Nov 6th Energy and Oscillations Work HW #5 Due
7	Nov 9th Lab 6: Conservation of Energy Lab 5 Due	Nov 11th Veterans Day No Class NO Journal Due	Nov 13th Momentum and Impulse Chapter 7, pg 125-138 HW #6 Due
8	Nov 16th Lab 7: Conservation Laws Lab 6 Due	Nov 18th Momentum and Impulse Exam Review Journal 6 Due	Nov 20th Exam 2
9	Nov 23rd Behavior of Fluids Chapter 9, pg 171-186 Lab 7 Due	Nov 25th Pressure and Density Journal 7 Due/HW #7 Due	Nov 27th Thanksgiving No Class
10	Nov 30th Lab 8: Archimedes' Principle	Dec 2nd Electrostatic Phenomena Chapter 12, pg 237-253 Journal 8 Due	Dec 4th Electrostatics Exam Review HW #8 Due
11	Dec 7th Final Exam 8am - 9:50am Lab 8 Due/Optional Journal 9 due	Dec 9th	Dec 11th
