

Stuff & THINGS

March 30, 1970

Editor, Peggy Toftdahl

THE HOT LINE FROM ABROAD.....is that the bus in which Dr. Schafer was traveling nearly tipped over in Turkey! It seems it took half the Army and a bit of equipment to right the tipped educators transportation. (And, don't forget to ask Dr. Schafer what he thought of Anisette ~~when he returns--~~) (that's the national drink in Lebanon.....right, Mr. Barnes?)

Speaking of Mr. Barnes....He has just been honored by being appointed to the Editorial Board of the Community College Social Science Quarterly! Congratulations!!! (More about that when your editor can catch Mr. Barnes for comments!!!)

*FROM DEAN ARCHIBALD.... Friday is the last day to register for classes for all full-time students, and the last day to add classes.

BOB MILLER reminds us that there is a great need for qualified students in student government, and that instructors could assist greatly by encouraging these individuals to participate! Petitions are available at the Student Center, and the deadline is April 14th.

MAY 4th is Budget Election day.

HATS OFF TO DR. SCOTT! 100% of his students (Ag Chem.) taking the Herbicide Examination given by the State Department of Agriculture passed! What's so amazing about that? (According to Tom Harrison, Chemical Applicator Supervisor, Plant Division, State Dept. of Ag., 42% taking this very exam usually fail.) !

APRIL BIRTHDAYS (coming this week.....)

April 4....Jim Barnes
April 6....Carl Love
April 6....Bob Miller

Margaret Phelan has finally succeeded in killing that philodendron. (One leaf is still hanging on.....)

IN CASE YOU HAVEN'T HEARD THIS ONE.....

What did the worm say when he fell into a bowl of spaghetti?

"I love you, I love you, I love you, I love you, I love you, i....."
