Principles of Physics, GS 104 Syllabus

General Information

Instructor Information and Availability

Instructor name: Heather Hill

E-mail address: hillh@linnbenton.edu

Office hours: Friday 1 – 3pm and see Calendar Link in Moodle (available by appointment)

Office: https://linnbenton.zoom.us/my/physics.heather, Password: Physics

Science Help Desk Hours: Tuesday 1 – 3pm and Thursday 11 – 1pm Zoom Link: https://linnbenton.zoom.us/j/96043929596, Password: Science

Course Information

CRN: 33728; Section: 02

Scheduled days and time: 8am – 9:20am on Wednesday and Friday (Lecture)

Added Optional Open Lab time: 8am – 9:50am on Monday (Lab)

Number of credits: 4

Classroom: https://linnbenton.zoom.us/j/91068947446; Password: GS104

Prerequisites:

MTH 075 Variables and Linear Equations or equivalent with a grade of "C" or better.

Course Materials

Optional:

• Textbook: The Physics of Everyday Phenomena, 7th ed., by W. Thomas Griffith

Course Description

A survey course that will introduce you to concepts in physics, without diving deep into the mathematics. The purpose of this course is to give you a general understanding of physics, as well is encouraging further interest in physics.

My favorite topics within physics are acoustics, biophysics (breast cancer cell research), physics education research (PER) and historical physics. You can ask me about Schrödinger's cat, the Michelson Interferometer and the luminiferous æther, marimba resonator and bar construction, microtumors or spheroids, single photon confocal microscopy and multiphoton microscopy.

Plan for the term due to COVID-19:

I plan to continue to hold class as scheduled remotely. I will use both synchronous and asynchronous teaching utilizing Moodle, Zoom, and Gradescope. Any teaching done synchronously will be recorded in the event you are unable to "attend" class. It is also possible that my style will shift as we work together in this new learning environment. I do hope to connect with each of you at least once per week throughout the term. I understand that it may look different for different individuals.

Student Learning Outcomes

- 1. Describe and apply the process of scientific inquiry.
- 2. Solve problems using quantitative methods.
- 3. Use a variety of tools to collect data related to physical phenomena.
- 4. Analyze data and present conclusions from experiments related to physical phenomena.
- 5. Describe motion and forces using appropriate language and diagrams.
- 6. Describe and use the concept of conserved quantities to solve problems.
- 7. Solve conceptual problems related to two additional topics in physics from such areas as: waves and oscillations, thermodynamics, electricity and magnetism, and special relativity.

Class Policies

Class Format

The class will be highly interactive. Traditional lecture, where the instructor will introduce physical laws, ideas, and problem-solving techniques, will be combined with 'studio,' where the students will work on a given problem in groups using a shared whiteboard.

Behavior and Expectations

You are held accountable to the <u>Student Code of Conduct</u>, which outlines expectations pertaining to academic honesty (including cheating and plagiarism), classroom conduct, and general conduct.

Use of Cell Phones

Phones are expected to be silenced and put away during class.

Testing

- Tests are taken individually, and are closed book unless told otherwise.
- If you know you will be absent on a test day please contact me ahead of time to schedule a make-up in the Student Assessment Center in RCH-111.
- Once tests are returned to the class they cannot be made up.
- The final exam is currently scheduled for Monday, March 15th, from 8am 9:50am.

Grading:

Midterms: 30% Final: 20% Homework: 20% Lab/Activities: 20% Journal: 5% Participation: 5%

Grades:

Α	100 – 90%
В	89 – 80%
С	79 – 70%
D	69 – 60%
F	59 – 0%

Exams: Due to the nature of physics, all exams are cumulative. There will be two midterm exams given and one final exam. You are permitted to create a reference sheet to be used during each exam. Details will be explained in lecture.

Homework: There will be a weekly homework assignment posted. Homework must be written up and submitted to Gradescope each week. Do not attempt to do all the homework the night before it is due as you will likely not be able to finish. **I will drop your lowest score.**

Labs: Laboratory work is important in any science class. The best way to get to know the Universe is to go up and poke and prod it to see how it reacts back (within reason).

Each week, labs will provide students with simulations and questions that they will solve/understand using relevant physics. The lab will be written up by each student and submitted to Gradescope. **I will drop your lowest score.**

Journals: At the end of each week, I would like you to reflect upon the concepts we have discussed in class, the labs we performed, and the activities you engaged in. Journals will be submitted in Moodle and will be due on Wednesday by midnight. Attachments can be uploaded through the journal feature on Moodle. **100 word minimum.**

In whatever way suits your artistic or methodological mind, keep a journal of how the physics relates to **your** life. You can draw a picture (and upload it), write a traditional journal entry, share a science/physics YouTube video and describe what you learned from it, find a quote and tell me how it relates to the aspect you learned, etc... Make this **yours**.

The goal of the journal is to help bridge the time between class meetings and keep the conversation between you and me going. You can even tell me what is going well and what is going terribly.

Participation: I would like to encourage you all to be present and participate for this class. To hold you accountable, I am requiring attendance to a live Zoom session **once per week**. I would absolutely love it and highly recommend that you attend more, but at the bare minimum, I stand at once per week. For success, I believe more meetings and contact with instructor and peers is necessary, which is why I have scheduled the two additional meeting times.

If you are absolutely not able to make a live session throughout the week, please make an individual appointment with me via Office Hours. This will serve as a weekly check-in to make sure everything is going alright and you are staying on track.

You are responsible for double checking my attendance input on Moodle to make sure we both have you down for your weekly attendance. I will drop one week of attendance.

Calculator Policy: Students may use **any calculator** (that is not a cell phone). However, a calculator is not required for this course.

Incomplete grades (IN) will only be considered if a student has talked to me in advance, and a signed agreement between the student and myself is completed. IN grade are assigned only if the student has a good reason for making the request, has only the minority of coursework to complete, and has scored a C or better on work that has been submitted.

Late Assignment Policy

No work can be made up after it is returned to the class. Late homework is not accepted. **One lab and one homework will be dropped.**

College Policies

LBCC Email and Course Communications

You are responsible for all communications sent via Moodle and to your LBCC email account. You are required to use your LBCC provided email account for all email communications at the College.

Disability and Access Statement

LBCC is committed to inclusiveness and equal access to higher education. If you have approved accommodations through the Center for Accessibility Resources (CFAR) and would like to use your accommodations in this class, please talk to your instructor as soon as possible to discuss your needs. If you believe you may need accommodation but are not yet registered with CFAR, please visit the CFAR website at www.linnbenton.edu/cfar for steps on how to apply for services or call 541-917-4789.

Statement of Inclusion

To promote academic excellence and learning environments that encourage multiple perspectives and the free exchange of ideas, all courses at LBCC will provide students the opportunity to interact with values, opinions, and/or beliefs different than their own in safe, positive and nurturing learning environments. LBCC is committed to producing culturally literate individuals capable of interacting, collaborating and problem-solving in an everchanging community and diverse workforce.

Title IX Reporting Policy

If you or another student are the victim of any form of sexual misconduct (including dating/domestic violence, stalking, sexual harassment), or any form of gender discrimination, LBCC can assist you. You can <u>report</u> a violation of our sexual misconduct policy directly to our Title IX Coordinator. You may also report the issue to a faculty member, who is required to notify the Coordinator, or you may make an appointment to speak confidentially to our Advising and Career Center by calling 541-917-4780.

Campus Police/Emergency Resources

You may review emergency services and resources at the LBCC <u>Public Safety website</u>. Campus Safety can be reached using the 'Code 2' button on any campus phone or by dialing x411 on campus or (541) 917-4440 off campus. Dial 911 for off campus emergencies.

Campus Resources

Learning Center

The Learning Center provides academic support and a comfortable place to study. It is located on the second floor above the Library. It also provides free tutoring services for all classes.

Library

Computers and printing available.

Science Help Desk

The Science Help Desk is located in the atrium on the first floor of Madrone Hall and is manned 20 hours per week. (https://www.linnbenton.edu/student-services/library-tutoring-testing/learning-center/science-support.php)

Roadrunner Resource Center

Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live, and believes this may affect their performance in the course, is urged to contact the Roadrunner Resource Center for support (Resources@linnbenton.edu, 541-917-4877, or visit the website https://www.linnbenton.edu/student-services/other-resources/roadrunner-resource-center.php). The office can help students get connected to resources to help. Furthermore, please notify me if you are comfortable in doing so. This will enable me to provide any resources, knowledge or connections that I may possess to help aid.

Linn-Benton Lunch Box

The LB Lunch Box provides an emergency supply of food for students in need. https://www.linnbenton.edu/student-services/other-resources/lunchbox.php

Other Help & Resources

Students with Young Children; Housing Information; Transportation options https://www.linnbenton.edu/student-services/other-resources/index.php

Other due to COVID-19:

The college has an amazing <u>FAQ</u> page about how the term will work (and how to access basic needs resources, such as food and rent if you need them).

If you do not have access to a computer, call the LBCC library at 541-917-4630. If you do not have internet access, there are some <u>options</u> listed under the category of "Staying Successful in Your Classes."

I understand that many of you have not taken an online course before or have limited experience sing spring term. I have never taught an online course before spring term! I will be extremely flexible and willing to help you in any way I can. My goal is to find a way for all students to succeed!

A note on Zoom: I know not everyone will be able to participate, but I hope many of you will. (It is okay if you have kids at home or pets!) Zoom uses your computer (or phone) camera and audio, so you can see me and other students. In this time of isolation, Zoom can really connect us and help to develop a class community. To get started with Zoom, all you need to do is go here, and sign in with your LBCC email and password. This will create your Zoom account automatically. Your first use of Zoom will require a one-time download. The Zoom mobile app works similarly.

Changes to the Syllabus

I reserve the right to change the contents of this syllabus due to unforeseen circumstances. You will be given notice of relevant changes in class, through a Moodle Announcement, or through LBCC e-mail.

Note: Changes are much more likely to occur this term due to troubleshooting new solutions for labs and activities in a science classroom. I will do my best to not change things around too much, but please be warned and flexible if things do need to change. My expectations for you are highly relaxed due to the many changes and I ask for the same in return.

GS 104 Tentative Schedule

Week	Mandov	Wednesday	Estable
Week	Monday Jan 4th	Wednesday Jan 6th	Friday Jan 8th
1	Jan 4th	Intro Chapter 1, pg 1-13 Appendix A	Describing Motion Chapter 2, pg 18-34
2	Jan 11th Lab 1: Measurement, Scientific Notation, Scientific Method	Jan 13th Motion Diagrams	Jan 15th Pos, Vel, Accel
3	Jan 18th Lab 2: Pos, Vel, Accel The Moving Man	Jan 20th Falling Objects Chapter 3, pg 38-48	Jan 22nd Gravity
	Lab 1 Due on Tuesday due to MLK Day Jan 25th	HW #2 Due/Journal 2 Due Jan 27th	Jan 29th
4	Lab 3: Gravity	Projectile Motion Chapter 3, pg 48-54	Projectile Motion Intro to Forces(?)
	Lab 2 Due	HW #3 Due/Journal 3 Due	
5	Lab 4: Projectile Motion	Newton's Laws Chapter 4, pg 60-74	Exam Review Exam 1
	Lab 3 Due	HW #4 Due/Journal 4 Due	
6	Lab 5: Forces and Energy Lab 4 Due	Energy Chapter 6, pg 103-118 Journal 5 Due	Feb 12th Work and Energy
7	Feb 15th Lab 6: Conservation of Energy	Feb 17th Work and Energy HW #5 Due/NO Journal Due	Feb 19th Momentum and Impulse Chapter 7, pg 125-138
8	Lab 5 Due on Tuesday due to Presidents Day Feb 22nd Lab 7: Conservation Laws	Feb 24th Momentum and Impulse Exam Review	Feb 26th Exam Review Exam 2
	Lab 6 Due	HW #6 Due/Journal 6 Due	
9	March 1st	March 3rd Behavior of Fluids Chapter 9, pg 171-186	March 5th Pressure and Density
	Lab 7 Due	Journal 7 Due	HW #7 Due
10	March 8th Lab 8: Archimedes' Principle	March 10th Electrostatic Phenomena Chapter 12, pg 237-253	March 12th Electrostatics Exam Review
		Journal 8 Due	HW #8 Due
11	March 15th Final Exam 8am - 9:50am	March 17th	March 19th
	Lab 8 Due/Optional Journal 9 due
